D 18'

T I have a digital master tape of me playing these pieces in 1993 plus about 8 other pieces that I composed. CDs could be printed from this master.

K These pieces were composed when I immigrated to Switzerland. They express the changes in my heart and gratitude for the kindness that the Swiss people showed me in my new home country.

These pieces reflect my spiritual practices in Eckankar, religion of light and sound. Wellen should reflect long waves that move through the water and in the middle a waterfall. Mercy was written during the year I moved to Switzerland and describes God's help in our lives.
